Teamwork Plan

Minimum Viable Product

The MVP goal is the completion of *babble* and *anonymous name* concepts, which involves the following:

- Model for babble and anonymous name
- View in which a user can post a babble using real or anonymous name, after which the babble is displayed on the page
- Controller that bridges the models and the view

We will postpone the following issues for final release:

- All other concepts identified in the design document: *vibes* and *reputation*
- Security mitigations as outlined in the design document
- Refined user interface elements
- MIT student authentication

In the case of completion before project deadline, we will attempt the following reach goals:

- Log in using MIT certificate
- Greater assortment of *vibes*

Tasks

*note that all tasks are subject to update at any point

MVP

Task	Lead	Expected Time	Deadline
schema	Team discussion	3 hour	11/18
Model API spec	Team discussion	4 hours	11/18
babble ADT	Rachel, Candice	8 hours	11/19
anonymous name ADT	Rachel, Candice	8 hours	11/20
user ADT	Rachel, Candice	8 hours	11/21
Controller	Alice	10 hours	11/22
View	Stacy	8 hours	11/22

Final Product

Task	Lead	Expected Time	Deadline
Aesthetics	Candice, Stacy	20 hours	12/10
User model	Alice, Stacy	15 hours	12/11
Babble ADT	Alice, Stacy	15 hours	12/11
Comment ADT	Rachel, Stacy	15 hours	12/11
Anonymous name ADT	Rachel, Candice	15 hours	12/11
Controller	Alice, Rachel, Candice	30 hours	12/11
View	Candice, Rachel, Alice	30 hours	12/11
Incorporating MIT certificate	Candice, Stacy	10 hours	12/11
Security risks mitigation	Security is everybody's responsibility	20 hours	12/11

General expected effort
- Our team's goal is to get an A for the project, and we will do our best to put in our maximum effort

Hard deadlines
- Wed, Nov 23, 2016 MVP code hand-in
- Mon, Dec 12, 2016 Final code hand-in
